## LEADER IN SUSTAINABILITY

PWM is the first airport in the United States to use 100% Recycled Aircraft De-icing Fluid. By capturing sprayed de-icing fluid and processing it to be used again, PWM is no longer trucking de-icing fluid in from offsite.

PWM was the second commercial airport in the U.S. to attain LEED (Leadership in Energy and Environmental Design) Gold Certification from the U.S. Green Building Council

PWM has a solar array on the top level of the parking garage. Over a 12 month period to array produces enough electricity to power the entire parking garage operation.

## DAILY NON-STOP FLIGHTS TO CITIES INCLUDING

NEW YORK CITY

DC/BALTIMORE

CHICAGO

ATLANTA

DETROIT

CHARLOTTE

PHILADELPHIA

BOSTON

## TOTAL ANNUAL PASSENGERS

In 2022, passenger traffic at the Portland International Jetport was 90% of pre-pandemic record of total of 2.2 million passengers. And 2023 numbers are off to a great start. The Portland International Jetport has worked to assure a safe and healthy travel experience, and to provide continuing excellence in customer experience. Welcome back, everyone, to Maine's Home Airport.
