- b. Penalties – If it is determined that any Commercial Ground Transportation Operator or Driver has violated these Rules and Regulations, penalties will be governed by City Code Section 30-38: Vehicles for Hire, Penalties. In any case in which an Operator has another person acting as an employee, Driver or representative, or has more than one Vehicle with an Access Permit/Decal at the Airport, the Airport Director, Commercial Ground Transportation Manager and/or the hearing officer has the discretion to limit any suspension to the Vehicle and/or the Person whose actions resulted in the violation. If it is determined that the Commercial Ground Transportation Manager or Commercial Ground Transportation Coordinator has violated these Rules and Regulations, the Airport Director will take appropriate corrective action.
- c. In the event of the suspension of any Operator, Driver, and/or any Person, that Operator, Driver, and/or Person shall not be permitted to provide Commercial Ground Transportation Services at the Airport during the period of suspension. Absent dispensation under paragraph (b) above, any suspension shall include both the Operator, Driver, and Person specifically suspended as well as any corporation, partnership, firm, organization, d/b/a/ or other legal entity in which the Operator, Driver and/or Person has more than a 49% ownership or partnership interest, either directly or in conjunction with a person related by blood or marriage, or with another Operator or Person also under suspension.

- d. The Airport Director and/or the Commercial Ground Transportation Manager reserves the right to suspend an Operator's Access Permit or to suspend any Person operating under an Access Permit immediately upon receipt of a report from the Commercial Ground Transportation Manager or LEO which alleges that a serious violation has occurred which poses a threat to the public or to the safe operations of the Airport, whether or not such violation is reasonable likely to recur or to continue. In such case, a hearing will be scheduled within seven (7) calendar days of the effective date of the suspension.
- e. In addition to the foregoing, the LEO has the right to remove any Operator or Driver from Airport property if the LEO believes that such Operator or Driver poses an immediate threat to public safety or if an on-duty Operator or Driver is in the Terminal in violation of these Rules and Regulations.

The LEO shall promptly make a full report of such incident to the Airport Director. Unauthorized entrance on or use of Airport property, after order to leave by the LEO, Airport Director, or Commercial Ground Transportation Manager, will be considered to be trespass, and may be enforced accordingly, in addition to any other sanction which may be imposed under these Rules and Regulations.
